

Virtual Reality experiences... designed with your relaxation in mind – 18 experiences – Easy Mobile

A) VR NATURE VIDEOS

Relax within our stereoscopic 360 VR Nature experiences, where you can swim with dolphins in the ocean, immerse within the untouched landscape and white sandy beaches of Crete, or ponder amidst the contemplative ambience of the Alps with its vast mountain lakes and lush green forests. If Thailand is your desire, you can relax while walking amidst mystic temples, pristine coves and ancient jungles. To optimize your relaxation, special binaural music has been adeptly synced with each experience. The virtual journey to picturesque nature settings has a positive effect on mental health, promotes stress relief and mental regeneration and has, according to a study by the prestigious Humboldt University, Berlin conducted for Magic Horizons, a relaxing effect.

1) DREAMY BEACH (length 5 mins)

- In Thailand, dream on beautiful beaches and at magical waterfalls -

From a spectacular location, view the wide ocean and waves, while listening to ethnic chants and nature sounds: The beautiful beaches and waterfalls of Thailand, have you dive into relaxing worlds very quickly. Forget about daily sorrows and stress. Based on the insights of the study by Humboldt University, Berlin for Magic Horizons, you experience a deep relaxation.

2) SUNNY ISLAND (length 5 mins)

- Slow down in fantastic natural worlds on the Greek island of Crete -

Immerse yourself in beautiful, unspoiled landscapes on the sunny island of Crete. Turquoise seas and white sandy beaches are the perfect invitation to dream away and just slow down. Discover fascinating gorges and unique rock formations -- and relax on the banks of untouched streams. Continually discover new details in this 360° world without being distracted by the outside world.

3) GREEN MOUNTAINS (length 5 mins)

- Relax in the lush green mountain landscapes of Bavaria -

Enjoy the beauty of the alpine uplands on a beautiful summer day. Babbling brooks, peaceful mountain lakes, rippling waterfalls and green forests allow for a particularly deep and pleasant relaxation and stress reduction. According to the Humboldt study for Magic Horizons, the green colors have a particularly calming effect.

4) DOLPHINS' DANCE (length 5 mins)

- Swim with dolphins (Part 1) -

Have you ever dreamed of swimming and diving with dolphins? Now you can make this wish come true with Magic Horizons in Virtual Reality. Dive in with a group of dolphins and watch their magical dance. The soothing, relaxing effect of the dolphins on the human psyche has been proven.

5) DOLPHINS' DREAM (length 5 mins)

- Swim with dolphins (Part 2) -

The magical journey with the dolphins continues. You'll set off on another journey with these wonderful mammals. Stress at work or during a treatment fade into the background. Diving with dolphins has a soothing effect on the human psyche and is particularly realistic and relaxing in Virtual Reality.

6) MYSTIC TEMPLES (length 5 mins)

- Unwind in mystic temples in Thailand -

Visit the impressive temples of Wat Phra Si Sanphet, Wat Ratchaburana and Wat Phra Mahathat in Ayutthaya and relax with calming flute melodies. The feeling of "presence" in Virtual Reality while enjoying the impact of the old temple ruins will quickly take you out of daily stress and rush to a place of silence and contemplation.

7) DEEP JUNGLE (length 5 mins)

- Gather new energy in a green jungle -

Mighty old Makayuk trees in the middle of the Thai jungle on Koh Kood island offer a safe place to escape life's "mental hamster wheel". Gather new mental energy at work or reduce your stress during a treatment. As above, according to the Humboldt study, shades of the color green have an especially relaxing effect on the human psyche.

8) GORGE WALK (length 5 mins)

- Gain energy within a gorge in the Alps -

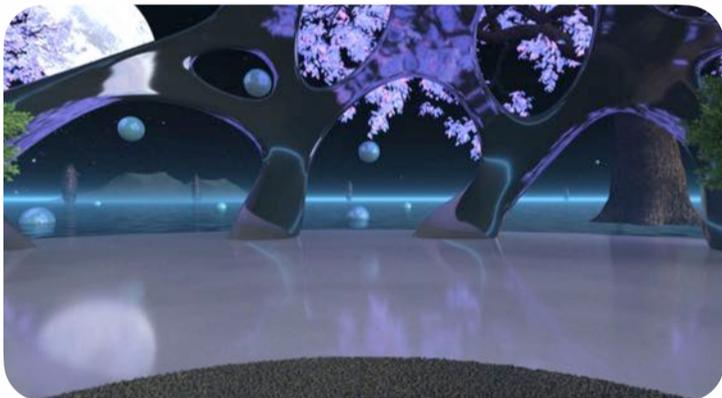

Gain energy in the unspoiled landscape of the Alps. Relax on a guided high-altitude hike in Virtual Reality and let your soul relax on clear mountain streams. That color “green” again – it has a beneficial, relaxing and liberating effect on the human psyche.

B) BINAURAL BEATS

The scientific benefits of “Binaural Beats” are extensively analyzed in the previously mentioned Humboldt study: it’s about sine waves for the left and right ear, that differ slightly in their frequencies. This slight difference generates the appropriate beats in the human brain, which move it to the respective frequency condition. In our experiences below, music is used to fit with the different frequencies. In the selection menu, users can also listen to just the sine waves without music. In a beautiful virtual relaxation room, you’re also shown the wave movements to engage your eyes as well as your ears, which enable you to dive in and relax even more deeply (= immersion).

1) DELTA WAVES (length 10 mins)

- Deep relaxation with Delta Waves -

“Delta Waves” represent deep relaxation, sleep, the subconscious. They are offered in the 1 Hz and 2 Hz range. Here, a visitor is in a virtual relaxation room, where the visual backgrounds change slowly as part of a “dream journey”. The music is particularly slow and calm.

2) THETA WAVES A (length 10 mins)

- Mid-level relaxation with Theta Waves A -

“Theta Waves A” represent dreaming and mid-level relaxation. They are offered in the 4 Hz and 5 Hz range. In this experience, the virtual relaxation room is in a beautiful underwater world.

3) THETA WAVES B (length 10 mins)

- Light relaxation with Theta Waves B -

“Theta Waves B” represent light relaxation. They are offered in the 6 Hz and 7 Hz range. Here, the virtual relaxation takes place in a “white room”. The visitor focuses only on the sine waves, music and visualization of the frequencies in Virtual Reality.

4) ALPHA WAVES (length 10 mins)

- New energy and creativity with Alpha Waves -

“Alpha Waves” represent daydreaming and a relaxed state of awareness. They are offered in the 9 Hz and 10 Hz range. In this experience, the virtual relaxation room is a beautiful desert landscape.

D) DREAMS & MEDITATIONS

Using guided breathing and sleep enhancing exercises, meditations and fairy tales are read in a soothing voice to help achieve a state of deep relaxation, slow breathing, and regeneration of the mind and body. At the same time, the virtual environments provide thorough visual relaxation.

1) BREATHE & RELAX (length 7 mins)

- A guided breathing and relaxation exercise -

Let yourself fall and take a break. Experience deep relaxation in a beautiful animated landscape, where you will be guided through with the help of your breathing. By focussing on your breathing, you will enter an increasingly deep state of blissful peace, safety and stress reduction. Two different Virtual Reality scenarios support the successive relaxation of the mind and body.

2) FREE YOUR MIND (length 7 mins)

- A guided meditation -

Relax by a quaint, real brook with the “Free Your Mind” meditation. This is about finding your inner peace and freeing your mind of the constant “carrousel of thoughts”. Switch off in between to alleviate getting worked up by long “to do” lists. Listen to the voice, the babbling brook and relaxing music. The 360° sensation will considerably increase the effect.

3) THE INNER SMILE (length 5 mins)

- A guided meditation -

“The Inner Smile” is a guided meditation at a beautiful beach in Thailand. It’s all about the gift of smiling and releasing negative feelings and worries. This meditation can positively affect your mood. Gaze at the beautiful beach and allow your thoughts to come to rest. Feel the energy of the smile on your face. Listen to the gentle voice.

4) ECHOES IN WHITE (length 5 mins)

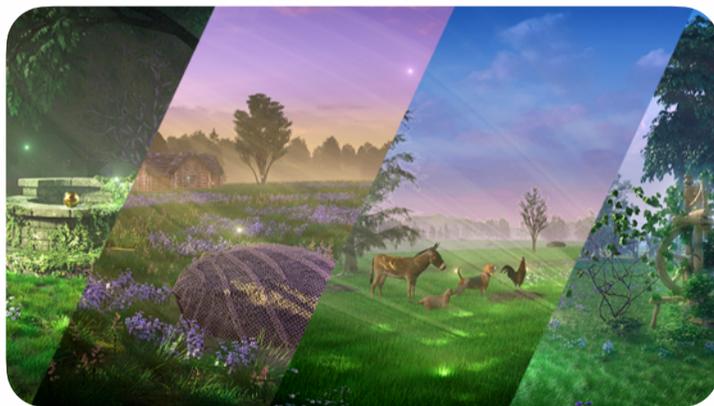

- A journey through magnificent fantasy worlds -

“Echoes in White” guides you through three different worlds. You’ll start in space on an asteroid, when a white “Echo Ball” will take you to the “Green Oasis”, before another “Echo Ball” takes you to the “White World” - a magical, animated world, where dreaming and lingering are encouraged. According to the Humboldt study, the peaceful 360° cinematography and atmospheric images enable a relaxing Virtual Reality experience.

5) FAIRY TALES (length 10 mins each)

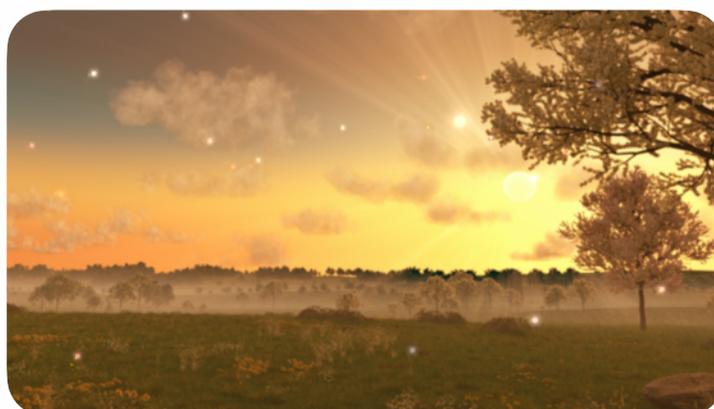

- Famous fairy tales -

Walk into the virtual entrance hall. You’ll be transported to a 360° setting, depending on the fairy tale. Professional storytellers take you to the virtual world of the Brothers Grimm and in future other beautiful fairy tales from all over the world. You’ll be accompanied by gentle music and can fully devote yourself to the flow of stories. It’s a “fairy-tale” way of slowing down in Virtual Reality.

6) SLEEP WELL (length 7 mins)

- A fabulous relaxation trip before sleep -

Floating on a cloud, carried by the lightness of being, this is a relaxing journey to sleep in 360 worlds which block out the outside world. Listen to an Indian fairy tale that yields pleasant tiredness, fades your everyday worries and gently leads you to sleep. Sleep well!
